HELP US TELL OUR LEGISLATORS: **NO NEW GUNS LAWS IN VT**

WHY OPPOSING THE PROPOSED GUN CONTROL LEGISLATION IS NECESSARY

Vermont's Gun Control lobby is telling our legislators that the population of Vermont has changed; that your rights and values are no longer relevant. A few legislators seem to believe this and need to be convinced otherwise. They say that Sportspeople are not willing to stand up and protect your rights, and that you will not oppose their laundry list of New York City style gun control. They say 2018 is the year for Vermont to enact big city gun control restrictions and that you will sit back and not object. Beyond that: Gun control advocates in Vermont are using several state legislators to once again call for passing numerous types of gun control laws, and are considering laws that effect other sporting activities.
